Re: Requested Forms for County Canyon Mine, M/023/024, Juab County, Utah

Dear Mr. Wise:

Enclosed are blank copies of the forms you requested in your phone conversation with Tony Gallegos on December 5, 1996. A list of soils parameters prepared specifically for the County Canyon mine site is also included. In addition, electronic copies of the Reclamation Contract (MR-RC), Revision of Large Mining Operations (MR-REV) and Large Mining Operation Notice of Intention (MR-LMO) forms are stored on the enclosed disk in a WordPerfect format.

If you have any questions regarding these forms or the soils sampling parameters, please contact me.

Sincerely,

Joelle Burns  
Engineering Technician
